## Legislature directs SCF to become mutual insurance company by 2013

Dear Association Partner:

Thursday evening, the Arizona Legislature approved Senate Bill 1045 directing that SCF Arizona become an Arizona mutual insurance company on January 1, 2013. We are very pleased that the Legislature took this step. Next, the bill will go to the Governor's Office to be signed into law.

This legislation will not change the way SCF Arizona does business and it will not change the day-to-day operations of SCF Arizona. SCF will still serve our client businesses and we will still work to ensure the best care for injured workers and support for their families. We have an 85 year history of taking care of Arizona's businesses and injured workers with compassion and professionalism. This will continue to be our mission.

This change will be a gradual transition over the next thirty months. All the current services and resources you have come to know and expect from SCF will remain the same or improve. We see this new law as great benefit to our policyholders and associations as it will allow SCF Arizona to offer additional products and services.

We believe that one of the many strengths of SCF is reflected in the Association Safety Program with our associations. Your efforts have helped make Arizona a better and safer place to work and we look forward to a continued long and mutually prosperous relationship.

Sincerely,

Don Smith  
CEO and President
