

# What is Premium Financing & how can it help me?

## What? Premium Financing:

Involves the lending of funds to a company and/or individual to cover the cost of an insurance premium. Premium finance loans are often provided by a third-party finance entity known as a "Premium Financing Company."

## Why? Benefits to financing your insurance premium:

- Helps remove the financial burden of a large up-front payment to an insurance company.
- Premium financing is often completely transparent to the company or individual insured. Mountain West Agency Services submits the completed premium finance agreement to Capital Premium Financing and the policyholder is billed normally as if it was a typical insurance policy.

## Who? Capital Premium Financing provides financing through Mountain West Agency Services, which works directly with SCF Arizona.

## Where? The insured has access to its premium finance accounts online at <http://www.capitalpremium.net>
